

# BEST PRACTICES FOR DISPOSAL OF PPE AND CLEANUP MATERIALS

## DISPOSAL OF PPEs & CLEANUP MATERIALS

- Dispose of PPEs and cleaning materials per the following requirements:

Non-absorbent Materials	If Contaminated <sup>2</sup> with Blood/Body Fluids <sup>1</sup>	If No Blood/Body Fluids Contamination <sup>2</sup>
Eyewear/Face Shield		
Gloves		
Absorbent Materials	If Saturated <sup>3</sup> with Blood/Body Fluids	If No Blood/Body Fluids Saturation <sup>3</sup>
Gown		
Mask		
Paper Towel		
<b>Key:</b>  = Solid Waste  = Biomedical Waste		
<p><sup>1</sup><b>Body Fluids</b> include blood, blood products, lymph, semen, vaginal secretions, cerebrospinal, synovial, pleural, peritoneal, pericardial and amniotic fluids. Body excretions such as feces and secretions such as nasal discharges, saliva, sputum, sweat, tears, urine, and vomitus shall not be considered biomedical waste unless visibly contaminated with blood.</p> <p><sup>2</sup><b>Contaminated/Contamination</b> defined as soiled by any biomedical waste.</p> <p><sup>3</sup><b>Saturated/Saturation</b> defined as soaked to capacity.</p>		

- Consider double-bagging solid waste items.
- Ensure bags are properly tied to prevent contents from falling out.
